Description	<p>Emilia is a young female born in March 2018. She has uniform colour dark fawn fleece, taken after her fawn father Aquaviva Trajan. Her mum Aspiring Misty is a solid white female with good genetics. Emilia is well grown for her age and should be able to become pregnant next year. She is likely to produce white to dark fawn offspring.</p> <p>Emilia is halter trained and she gets on well with other alpacas.</p>				
Fibre	Emilia's fleece has not been tested yet because she has not been shorn. A fleece test can be arranged on request.
