

Aquaviva Alpacas

Aquaviva Madras

Aquaviva Herd Reduction Sale

Name	Aquaviva Madras				
Ear Tag	AQUK0004	Registry No.	1014703		
Birth Date	28-Feb-2014	Sex	Female	Phenotype	Huacaya
Colour	Solid Dark Fawn				
Sire	Aquaviva Trajan - (S)DF (1001020)				
Dam	Aquaviva Aspiring Misty - (S)W (107178)				
Description	<p>Madras is a solid dark fawn female with abundant uniform colour fleece. She had a tough start to motherhood with her first cria born prematurely, but proved to be a very good and reliable mother. The cria has grown into a handsome female (Aquaviva Phoebe).</p> <p>Madras has good genetics with Forestglen Ramses on her mother's side, and Eringa Park Aroma and ILR Alpine Fibre Brutus on her sire's side. She did not become pregnant in 2017 and 2018. The expected price reflects the lack of recent birthing record.</p> <p>Madras has useable commercial fleece, is halter trained, calm and friendly. She will be a nice animal to have on the farm.</p>				
Fibre	First Fleece: 2014 - 19.0 mic; SD 4.1, CF 98%, 107mm staple, CRV 55.3 Second Fleece: 2015 - 20.9 mic, SD 3.8, CV 18.1, CF 97%, 110mm staple, CRV 57.9 Third Fleece: 2016 - 26.5 mic, SD 5.6, CV 21.0, CF 79%, 130mm staple Fourth Fleece: 2017 - 28.4 mic, SD 5.6, CV 19.8, CF 67%, 102mm staple, CRV 49.8
