<b>Sire</b>	Aquaviva Waratah Flats Achilles - MF (80722)				
<b>Dam</b>	Aquaviva Juliet - (S)MF (1010406)				
<b>Description</b>	<p>Princess is a four years old female with good genetic background, including Venchura, Warrior and ILR Alpine Fiber's Brutus. She was not mated until 2017, and her first pregnancy did not result in a live cria due to difficult birthing. We did not attempt another mating due to the timing being too late in autumn season. The lack of motherhood experience is reflected in her price.</p> <p>Princess has a lovely nature, is calm and friendly, and she has been halter trained. She will be a very nice animal to have on the farm.</p>
